Social Research & Chinese Language Studies Program in CQUPT, Chongqing, China

PROGRAM TIME: June 3rd to July 5th , 2019(5 weeks)

HOST UNIVERSITY: Chongqing University of Posts and Telecommunications (CQUPT)

INTRODUCTION TO THE PROGRAM

Social Research & Chinese Language Study Program is open to all NAU students. Students do the social research and experience Chinese Cultural with CQUPT students in Chongqing, and learn Chinese at CQUPT as a general visiting students. Upon completion of the program, students will receive a program certificate and an official transcript. This is an scholarship program, and the program fees and accommodation fee will be covered by CQUPT. Participants only need to pay their meals and return-flight tickets.

WHY PARTICIPATE THE PROGRAM IN CQUPT:

1. Experience China's university life

This is an exciting opportunity to be part of one of universities in China as visiting students and earn 14 credits in CQUPT. Participants will be arranged to stay in students dormitory.

2. Immersion with Chinese students

CQUPT has over 24000 students, all program participants will have Chinese buddies who help them to learn about Chinese culture and practice Chinese.

3. Wide variety of Unique social research and Unique culture experience

Students will have the opportunity to different places to do the social research, such as The Three Gorges and local enterprise and take variety of unique courses to learn Chinese and its culture. we arrange many filed trips to let students experience the traditional Chinese culture.

4. Experience China's fourth municipality and one of the most popular tourism cities-Chongqing

Chongqing is the logistic hub combining water, road and air transportation, a modern manufacturing base, an important business center and the pivot for integrated transportation and communications along the upper reaches of the Yangtze River and in the southwest China. Its modern farming is now growing with strong momentum. It features a wide range of fast developing industries, including automobile, motorcycle, equipment, gas/petroleum chemical engineering and materials.
